Discover the JAPCO Difference Today!

## ***BIRD PROBLEMS***

The damage that birds do to buildings every year can be astronomical.

## ***PIGEONS***

This image is of JAPCO President John Patton showing the damage being done by pigeons.

## ***IT'S GOPHER & VOLE CONTROL SEASON***

We all have waited for

***Building Operators, Property Managers, Owners are constantly waring this battle with birds.***

Pest Control Companies were not armed with the solution for the damage that woodpeckers have been creating for years.

**JAPCO has found a solution that WORKS!**

The Northern Flicker is a common woodpecker in Alberta and it is a protected species. We have found a humane solution that will deter the woodpecker from your buildings and it is totally humane and environmentally safe. Under the Migratory Birds Convention Act, violators can face punishments of up to three years in prison or a fine of up to \$1 million. The birds have

**Pigeons** can leave unsightly messes and **costly damage to properties.** They are carriers of diseases like cryptococcosis, histoplasmosis, toxoplasmosis, and salmonella. **JAPCO is fully equipped to win the war against pigeons** through the use of bird control products such as bird trapping, bird spike, bird netting etc. **JAPCO** prides itself on its workmanship when these products are applied that they do not look unsightly to ruin the look of homes and commercial buildings.

spring to arrive and with the winter thaw that is when you will notice the damage that has been made by gophers and voles. Since it takes time to eliminate a gopher & vole problem **now is the time to start this process so your lawn is summer ready.**

made their mark on a number of buildings and holes are visible in wood siding in neighbourhoods throughout the city.
